Description

- Efficient SHARP LED module with patented PMMA lens design allows the brightest output possible
- Machined T6061 aluminum body maximize thermal efficiency
- Bronze MCPCB maximizes thermal efficiency, therefore maximizing LED life
- Highest CRI of any commercially available downlights!
- Highest Lumen output efficiency in the industry

LED Downlights : 6 inch High-CRI Downlight

- Isolated driver design with PF>0.9, THD <20%, and MTBF >100,000 hours
- Quick-connect pigtail for easy installation
- Adjustable Spring clamp design for easy installation in any surface
- Commercial Grade Reliability
- Non-Dimmable
