LED Outdoor : Decorative Wall Lamp

Description

- Efficient CREE LED modules with patented PMMA lens design allows higher efficiency and the brightest output possible
- Glass lenses ensure resistance to the elements for many years
- 7 Step surface coating treatment resists water, dust, and corrosion
- 12 LED's emit light on both planes for wall-washer effect
- Highest Lumen output efficiency in the industry, and the most natural color output
- Isolated dual driver design with PF>0.9, THD <20%, and MTBF >60,000 hours
- Separate circuits for each light plane allow lighting to be controlled separately
- IP54 rated for outdoor use
- 2-piece design allows for easy installation
