Description

- Efficient COB module with patented reflector design allow higher efficiency and the brightest output possible
- Cast aluminum body maximize thermal efficiency
- Multi-sphere reflector maximizes even light distribution, reduces glare, and provides appearance of a standard Halogen
- Polycarbonate UV treated lens maximizes light transmittance and is impact resistant
- Trailing edge and leading edge dimmer compatible
- Isolated driver withstands 3,750 Volts
- Seismic suspension mounting holes
- CRI greater than 80
